:

Dear Mr. Hix:

BLM received Georgia Pacific's May 25, 2006 request for permission to temporarily operate a crusher equipped with a water-spray system to control dust, at their gypsum quarry located at Eagle Canyon. After review of the information, provided in the request, we authorize Georgia Pacific to operate the crusher as part of their mining operation (BLM case file number UTU-69850). The crushing operation may not exceed 180 days. Please notify the BLM should Georgia Pacific need to use the crusher for a longer period of time

You have the right to appeal to the Utah State Director, Bureau of Land Management, in accordance with 43 CFR 3809.4. If you exercise your right, your appeal accompanied by a statement of reasons and any arguments you wish to present which would justify reversal or modification of this decision, must be filed in writing within 30 days from the date of this decision. This decision will remain in effect during the appeal unless a written request for a stay is granted.

Thank you for keeping BLM informed of activities on Georgia Pacific's mining operation. If you have any questions please contact Rebecca Doolittle at (435) 636-3615 or by email at rdoolitt@blm.gov.

Sincerely,

Fred O'Ferrall
Associate Field Manager
